

# Canada's communities are not for sale!

## Why CETA is a bad deal for Canada

Canada and the European Union are negotiating a new Comprehensive Economic and Trade Agreement (CETA). This is a big deal for Canada and so far, negotiations have been quietly taking place behind closed doors.

If CETA is signed it will:

- Threaten our democracy by putting corporate rights first
- Encourage privatization of Canada's drinking water and wastewater services
- Threaten local job creation and "buy-local" policies
- Cause prescription drug costs to skyrocket by at least \$2.8 billion per year
- Allow big corporations to ignore or challenge environmental regulation

**Let's work together to stop this deal.**
