

Draft 1  
5"x7" postcard  
front  
full colour bleed

education  
health  
water  
sanitation

public services  
**for all**  
fight poverty

Draft 1

5"x7" postcard

back horizontal

black only, no bleed

**I care about people's right to health care, education and water.** I call on world governments and institutions to ensure all people have teachers for their children, doctors when they need them, medicines they can afford and safe water to drink.

I call on the Government of Canada to:

- Set a timetable for raising aid to 0.7% of national income
- Increase aid to support public services for all
- Ensure our aid won't promote privatization of public services
- Work with others to cancel poor countries' debts

**Public services fight poverty** – especially for women and girls. Change is possible!
