

# Happy Administrative Professionals' Day

For more than 50 years, employers around the world have been recognizing the valuable contributions of their administrative support staff.

During this special day, we would like to take this opportunity to recognize our CUPE members who work together in our Island's schools and school board offices.

You are the vital link between students, teachers, parents and school board administrators. You are often the first responders to inquiries and concerns, an essential component in the educational system.

**You are an important part of the education team - together we are building a stronger tomorrow for Islanders.**
