

# Fed up with cancelled city services like transit and garbage pickup?

So are Nelson city workers.

We've been locked out by the city and can't provide the quality city services that keep Nelson clean, safe and well-maintained and contribute to our reputation as a first rate city.

**Our jobs keep our community working.**

---

## WE WANT TO WORK, NOT WALK

---

Tell the Mayor and City Council to live up to Nelson's reputation as a first rate city and:

- **End the lockout and restore city services**
- **Get back to the bargaining table and negotiate a fair contract**
- **Keep city services public, stop contracting out**

Please drop by our line to say hello and offer your support. Bring your family and friends!
