

Frustrated with reduced garbage pick-up services, pool and city hall hours?

Due to budget woes, the city of Prince Rupert has asked city workers, members of CUPE 105, for a \$250,000 wage reduction.

We have agreed to make this sacrifice on behalf of our community.

Over the next year, the city has scheduled 14 unpaid "service reduction days" which represent a 6% income loss for Prince Rupert's 110 city workers.

We care about our community and are proud of the work we do keeping our city clean and safe.

These service reduction days are as painful to us as they are to you.

ASK CITY COUNCIL ABOUT THE CUTS TO CITY SERVICES
