**RE: 2014 Winter/Spring Union Development Workshop Schedule
Newfoundland & Labrador**

Dear Sisters and Brothers:

Attached you will find the upcoming Winter/Spring workshop schedule for Newfoundland & Labrador. There are a fairly wide range of workshops available, which hopefully will meet some of the needs of your local and your members. Please don't hesitate to ask for assistance in developing other educational needs, which may arise in the daily work of your local.

If you would like to have a specific workshop for your local that is not included on the schedule, please notify your Servicing Representative, who in turn will notify the Education Representative who will endeavor to make those arrangements.

It is very important that you adhere to the deadlines mentioned in red on each registration form as the booking of space for the workshops and facilitators greatly depends on the numbers of members registered. Please do not email registrations as your registration cheque *must* accompany your registration form. If you have members who cancel after the registration deadline your local will not receive a refund.

If a workshop is canceled the members you have registered will be contacted by phone so please ensure that phone numbers are included on the registration form.

In solidarity,

per: **Lynn McDougall**
