

Quality Jobs Quality Education Better Futures

PART-TIME AND TEMPORARY WORK ARE ERODING THE QUALITY OF EDUCATION AT OUR SCHOOL.

Academic and support workers are passionately committed to delivering high quality education and services for students, but they need **fair and decent working conditions** to make that happen.

The **working conditions** of staff are the **living and learning conditions of students**. It is extremely difficult for part-time, contract, and casual staff to provide a high-quality education in a safe, well-maintained environment.

Fair wages and decent working conditions mean better futures for everyone – workers and students.
